DETAILED ACTION

1. Claims 1-10 and 15-24 are presented for examination.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond C. Meiers on May 24, 2007.

The application has been amended as follows:

Referring to claim 9, line 2,

-- 7 -- has been inserted, replacing "9".

Drawings

3. Objections withdrawn.

Claim Rejections - 35 USC § 112

4. Objections withdrawn.

Claim Rejections - 35 USC § 103

5. Rejections withdrawn.

Allowable Subject Matter

6. Claims 1-10 and 15-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2125

Referring to claim 1, neither Steiger nor Clynych taken either alone or in obvious combination disclose a computer implemented method for producing an orthosis model for a patient having all the claimed features of applicant's instant invention, specifically including: "selecting at least one orthosis model from a predefined number of orthosis models with a model selection device on the basis of the determined curvature type". Also, there is no motivation to combine Steiger or Clynych to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record. Claims 2-10 depend from claim 1 and are therefore also allowable.

Referring to claim 15, neither Steiger nor Clynych taken either alone or in obvious combination disclose a computer implemented device for producing an orthosis model having all the claimed features of applicant's instant invention, specifically including: "an orthosis model selection device to select at least one orthosis model from said database on the basis of the determined curvature type". Also, there is no motivation to combine Steiger or Clynych to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record. Claims 16-24 depend from claim 15 and are therefore also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
